Emery County School District

Policy: IHAJ—Information Technology

Date Adopted: 2 November 1988
Current Review / Revision: 17 June 1998

It is the defined objective of the Emery County School District Computer Program to:

1)   meet or exceed State Core Curriculum for computer education;

2)   graduate students with knowledge of existing computer hardware and its applications; and

3)   graduate students with competency in key computer application, i.e., word processing, data base management, computer application spreadsheets, and information utility.
